Label precautionary statement	IRRITANT Irritating to eyes, respiratory system and skin		
Emergency overview	Contains material which cause damage to the following organs: lungs, gastrointestinal tract, respiratory tract, skin, eyes, central nervous system, lens or cornea. May be harmful if inhaled, absorbed through skin or swallowed.		
Potential health effects (Eye, Skin, Ingestion, Inhalation, Chronic)	Slightly hazardous in case of skin contact (corrosive, irritant), of eye contact (irritant, corrosive), of ingestion, of inhalation (lung irritant, lung corrosive)		
Other information (over-exposure, toxicity...)			
Precautionary guidelines	Avoid prolonged contact with eyes, skin, and clothing. Do not ingest. Avoid breathing vapor or mist. Keep container closed. Use only with adequate ventilation. Wash thoroughly after handling.		

Section 4		First aid Measures	
General measures	Remove contaminated clothing promptly. Allow the victim to rest in a well ventilated area, Seek medical attention		
Emergency first measures (Eyes, Skin, Ingestion, Inhalation...)	In case of skin contact, wash thoroughly (>15min) after handling-contact. Remove contaminated clothing and shoes In case of eye contact, flush with copious amounts of water for at least 15 min. Assure adequate flushing by separating the eyelids with fingers. If swallowed, do NOT induce vomiting, if conscious and alert, rinse mouth and drink water. Never give anything by mouth to an unconscious person. If inhaled, remove to fresh air If not breathing, give artificial respiration If breathing is difficult, give oxygen

MSDS-36858A	
Physical Information (Flammability, auto-ignition, flash point...)	Non-flammable
General information	/
Extinguishing media	Not applicable

Section 6 Accidental Release Measures	
General information	Wear proper personal protective equipment to avoid skin and eye exposure (see section 8): wear respirator, rubber boots, chemical resistant gloves
Spills and Leaks	Stop leak if without risk. Absorb with DRY earth, sand or other non-combustible material. Do not get water inside container. Do not touch spilled material. Use water spray curtain to divert vapor drift. Prevent entry into sewers, basements or confined areas; Bury if required. Dilute with water, or absorb with an inert dry material and place in an appropriate waste disposal container.

Section 7 Handling and Storage	
Handling	avoid prolonged contact with eyes, skin and clothing. Do not ingest. Avoid breathing vapors or spray mists. Keep container closed. Use only adequate ventilation. Wash thoroughly after handling.
Storage	Keep container tightly closed. Keep container in a cool, well-ventilated area.

Section 8 Exposure Controls, Personal Protection	
Engineering controls	Ensure there are eyewash stations and safety showers close to the work-stations. Avoid breathing vapors, and provide an exhaust ventilation for prolonged work periods.
Personal protection (eyes, hands, body, respiratory...)	For normal use, rubber gloves are usually sufficient when handled properly. Wear protective clothing (laboratory suit) to prevent skin contact In case of large spill, additional protective wears may be needed (boots, splash goggles and safety glasses...) Wear a NIOSH/MSHA or European Standard EN 149 approved full-facepiece airline respirator in the positive pressure mode with emergency escape provisions
Exposure limits	consult local authorities
